**05-DEC-2003**

**SUBJECT: ON Semiconductor Product Bulletin #13248**

**TITLE: Lead Free Products Marking Identification**

**EFFECTIVE DATE: 01-Jan-2004**

**AFFECTED CHANGE CATEGORY(S):**  
**Marking Process**

**AFFECTED PRODUCT DIVISION:**

MOS Power Products  
Analog Products  
Discretes Products  
Logic Products  
ECL Products

**FOR ANY QUESTIONS CONCERNING THIS NOTIFICATION:**  
Contact Sales Representative or Alan Garlington <RPR180@onsemi.com>

**NOTIFICATION TYPE:**

ON Semiconductor considers this change approved unless specific conditions of acceptance are provided in writing. To do so, contact your local ON Semiconductor sales office.

**DESCRIPTION AND PURPOSE:**

Product Bulletin to notify customers of marking for Lead free lead finish products.

Part marking will be added in order to better identify products with the lead free lead finish. For packages large enough, a letter "G" will be added to the package marking. The "G" will be placed at the end of either the device code or the date code. All packages greater than 6.5mm (255 mils) on both sides shall be marked with a "G". Some packages do not have the surface area sufficient to permit a "G" mark due to their small size. In lieu of a letter mark, these small packages will be marked with a dot which will be placed either at the end of the last row of marking or just below the last row toward the center of the package.

These marking changes will become effective workweek 1 of 2004.

In order to better identify the specific devices which are now available with the lead free lead finish option, the ON Semiconductor WEB site product tables now reflect this information. A symbol is placed at the beginning of the device title in the tables to indicate the lead free lead finish. Another column has been added to indicate the Moisture Sensitivity Level (MSL) associated with the parts. The MSL level for lead free lead finish parts is for solder reflow temperatures of 260 Deg. C. The MSL level for non-lead free lead finish parts is for solder reflow temperatures of 235 Deg. C.

Qualification of lead free packages continue and new part numbers are being made available on a weekly basis.

**Product Bulletin #13248**

For more details, please see the "General Pb (lead) Free Lead Finish/Plating Strategy" located at:  
<http://www.onsemi.com/site/content/0,,1148,00.html>
