

Title of Change:	Transfer of Automotive Assembly and Test operations of SMB packaged products to On Semiconductor Vietnam (OSV).
Proposed Changed Material First Ship Date:	1 July 2018
Current Material Last Order Date:	1 April 2018 Orders received after the Current Material Last Order Date expiration are to be considered as orders for new changed material as described in this PCN. Orders for current (unchanged) material after this date will be per mutual agreement and current material inventory availability.
Current Material Last Delivery Date:	30 June 2018 The Current Material Last Delivery Date may be subject to change based on build and depletion of the current (unchanged) material inventory.
Product Category:	<i>Active components – Discrete components</i>
Contact information	Contact your local ON Semiconductor Sales Office or <Phuong.Hoang@onsemi.com>
Samples	Contact your local ON Semiconductor Sales Office to place sample order. Sample requests are to be submitted no later than 45 days after publication of this change notification.
Sample Availability Date:	1 July 2017
PPAP Availability Date:	31 July 2017
Additional Reliability Data	Contact your local ON Semiconductor Sales Office or <cheanching.sim@onsemi.com>.
Type of Notification	This is a Final Product/Process Change Notification (FPCN) sent to customers. FPCNs are issued 12 months prior to implementation of the change or earlier upon customer approval. ON Semiconductor will consider this proposed change and it's conditions acceptable, unless an inquiry is made in writing within 45 days of delivery of this notice. To do so, contact < PCN.Support@onsemi.com >.
Change Category	Type of Change
Process – Assembly	Move of all or part of assembly to a different location/site/subcontractor.
Test Flow	Move of all or part of electrical wafer test and/or final test to a different location/site/subcontractor.
Equipment	Production from a new equipment/tool which uses the same basic technology (replacement equipment or extension of existing equipment pool) without change of process.
Description and Purpose:	
<p>This Final Notification announces the transfer of Assembly and Test of SMB products from ON Semiconductor Malaysia (SBN) to ON Semiconductor Vietnam (OSV).</p> <p>Upon completion of this transfer, these SMB products will be sourced solely from OSV Vietnam locations using the same Bill of Material.</p> <p>ON Semiconductor Vietnam (OSV) is qualified site for SMB Standard discrete packaged products and is ISO TS16949 certified.</p> <p>Products sourced from OSV have been qualified to Automotive requirements and continue remain as Pb-free, Halide free and RoHS compliant.</p>	

<p>Reason / Motivation for Change:</p>	<ul style="list-style-type: none"> • Change benefits for customer(s): <ul style="list-style-type: none"> ○ Unconstrained Automotive Sourcing; Mfg floor space for future expansion ○ Sustained TS16949 Certification with the Same BOM / Equipment / Processes ○ Allow for increased support for Seremban packages that are currently constrained ○ OSV has been audited to VDA6.3 • Risks for delayed conversion: <ul style="list-style-type: none"> ○ No Seremban supply after July 1st, 2018 ○ Limited ability to support bridge build availability. 																																																		
<p>Anticipated impact on fit, form, function, reliability, product safety or manufacturability</p>	<p>The device has been qualified and validated based on the same Product Specification. The device has successfully passed the qualification tests. Potential impacts can be identified, but due to testing performed by ON Semiconductor in relation to the PCN, associated risks are verified and excluded.</p> <p>No anticipated impacts.</p>																																																		
<p>Sites Affected:</p> <p> <input type="checkbox"/> All site(s) <input type="checkbox"/> not applicable <input checked="" type="checkbox"/> ON Semiconductor site(s) : <input type="checkbox"/> External Foundry/Subcon site(s) </p> <p style="margin-left: 150px;"> <i>ON Seremban, Malaysia</i> <i>ON Dong Nai Province, Vietnam</i> </p>																																																			
<p>Marking of Parts/ Traceability of Change:</p>	<p>Products from OSV will carry site code "VN" at the bottom of the package.</p>																																																		
<p>Reliability Data Summary:</p> <p>QV DEVICE NAME: P6SMB200AT3G (Zener) PACKAGE: SMB</p>
