

Process Change Notification

PCN #: 33220

Notification Date: March 23, 2009

Catalyst Semiconductor Part Number and Description:

All SOIC 8-lead devices with NiPdAu termination finish.

Description of Change:

Addition of an assembly house (OSPI in Philippines) as an alternate assembly subcontract vendor.

Customer Impact of Change and Recommended Action:

Catalyst has added the ON Semiconductor Philippines Inc. (OSPI) assembly facility to our qualified supplier list of approved IC package subcontract manufacturers to allow additional flexibility of supply.

Identification of Change: The assembly code marking on the package is "O".

Implementation Date for Change: July 1, 2009

Devices Impacted: For a list of devices impacted, see Appendix A.

Date When Qualification Samples Will Be Available: see Appendix A

Your acknowledgement of this PCN notice is required within 30 days.

Contact ON Semiconductor Catalyst Group at pcn@catsemi.com.

Lack of approval or extension request of this PCN notice within 30 days constitutes acceptance of the change.

If this box is checked, this notice is for information only. No action is required.
