

TO: Our Valued Customers of Catalyst Products
SUBJ: ON Semiconductor "Freight Terms" to apply to acquired Catalyst customers
DATE: June 22, 2009

Dear Customer,

The integration of acquired Catalyst business processes and systems into the respective business structures of ON Semiconductor Corp. has begun. As part of this integration, there will be a change to the standard Freight Terms between your Company and ON Semiconductor.

Starting on August 31, 2009, ON Semiconductor Freight Terms will apply to all acquired Catalyst customers. This document defines ON Semiconductor's standard Freight Terms by "customer ship-to country".

No actions are required on your part. However, it is important that your Accounts Payable and Purchasing teams understand the information contained in this communication.

ON Semiconductor Standard Freight Terms

These freight terms apply to the "ship-to" countries where you – our customers – have ON Semiconductor products delivered.

ASIA

ON Semiconductor uses a series of cross-docking facilities (or distribution facilities) in Asia. Our standard freight terms are FCA (free carrier) from our Asian cross-docking facilities.

ON Semiconductor's Asia-based cross-docking locations and the countries each of these cross-docks serves are as follows:

North Asia (Hong Kong cross-dock location)

- China
- Hong Kong
- Korea
- Philippines

South Asia (Singapore cross-dock location)

- Australia
- India
- Indonesia
- Israel
- Thailand
- Malaysia
- Turkey
- Singapore (cross-dock hub)
- Other Non-European Union countries in Europe, the Middle East and Africa

Japan (Narita, Japan cross-dock location)

- Japan

Taiwan (Taipei, Taiwan cross-dock location)

- Taiwan

AMERICAS

ON Semiconductor uses a single cross-docking facility (or distribution facility) in Los Angeles (LAX), California to serve most of the Americas. Our standard freight terms are FCA (free carrier) from the LAX cross-docking facility.

ON Semiconductor's Americas-based cross-docking location and the countries it serves are as follows:

USA (Los Angeles FCA location)

- Brazil
- Mexico
- Puerto Rico
- United States

CANADA

ON Semiconductor uses its Asia based distribution centers to serve Canada by direct ship to customer. Our standard freight terms are DPP (Delivery Duty Paid) destination from this cross-docking facility.

ON Semiconductor's Asia based cross-docking location serves all of Canada.

ON Semiconductor®

EUROPEAN UNION

ON Semiconductor uses its Asia based Global Distribution Centers (GDC) to serve the European Union by direct ship to customer. Our standard freight terms are DPP (Delivery Duty Paid) destination from these Asia GDC facilities.

(Note: European countries not in the EU are served by our South East Asia cross-docking location. See above.)
