### **Didier Balocco**

#### **Business Marketing Engineer**

Didier Balocco currently serves as the business marketing engineer for Europe at onsemi. He came to onsemi through the company's acquisition of Fairchild Semiconductor, which he joined in 2014 as a field application engineer (FAE) supporting the south of France, Spain, and Portugal.

Previously, Didier worked at AEG Power Solutions, formerly Alcatel Converters, as a research engineer for DC-DC and AC-DC converter design in a range of 1W to 1kW, mainly for telecom equipment. While at this company, he also managed the research activities.

Among his projects, Didier worked on a 15-kW solar inverter module for a 150-kW cabinet in Dallas, Texas, USA. His main interests during this period were switched-mode power supplies, converter stability and modeling, as well as high power factor rectifiers.

### Würth Elektronik

Würth Elektronik eiSos Group is a manufacturer of electronic and electromechanical components for the electronics industry and a technology company that spearheads pioneering electronic solutions. Würth Elektronik eiSos is one of the largest European manufacturers of passive components and is active in 50 countries. Production sites in Europe, Asia and North America supply a growing number of customers worldwide.

The product range includes EMC components, inductors, transformers, RF components, varistors, capacitors, resistors, quartz crystals, oscillators, power modules, Wireless Power Transfer, LEDs, sensors, radio modules, connectors, power supply elements, switches, push-buttons, connection technology, fuse holders and solutions for wireless data transmission.

The service orientation of the company is characterized by the availability of all catalog components from stock without minimum order quantity, free samples and extensive support through technical sales staff and selection tools.
