

CM1631

LCD and Camera EMI Filter Array with ESD Protection

Product Description

The CM1631 is a family of pi-style EMI filter arrays with ESD protection, which integrates four, six, or eight filters (C-R-C) in a small form factor, UDFN 0.40 mm pitch package. The CM1631 has component values of 15 pF – 100 Ω – 15 pF per channel with a cut-off frequency of 120 MHz, and can be used in applications with data rates up to 48 Mbps. The device includes ESD diodes on every pin, that provide a very high level of protection for sensitive electronic components against possible electrostatic discharge (ESD). The ESD protection diodes safely dissipate ESD strikes of ± 15 kV, which is well beyond the maximum requirement of the IEC61000-4-2 international standard. Using the MIL-STD-883 (Method 3015) specification for Human Body Model (HBM) ESD, the pins are protected for contact discharges greater than ± 30 kV.

These devices are particularly well-suited for portable electronics (e.g. wireless handsets, PDAs, notebook computers) because of their small package and easy-to-use pin assignments. In particular, the CM1631 is ideal for EMI filtering and protecting data and control lines for the I/O data ports, LCD display and camera interface in mobile handsets.

The CM1631 is housed in space-saving, ultra-low-profile 8-, 12- and 16-lead UDFN packages with a 0.40 mm pitch and is available with lead-free finishing. This smaller size UDFN package provides up to 42% board space saving vs. the 0.50 mm pitch UDFN packages.

Features

- Four, Six and Eight Channels of EMI Filtering with Integrated ESD Protection
- Pi-Style EMI Filters in a Capacitor-Resistor-Capacitor (C-R-C) Network
- ± 15 kV ESD Protection on Each Channel (IEC 61000-4-2 Level 4, Contact Discharge)
- ± 30 kV ESD Protection on Each Channel (HBM)
- Greater than 35 dB Attenuation (Typical) at 1 GHz
- UDFN Package with 0.40 mm Lead Pitch:
 - ♦ 4-ch. = 8-lead UDFN
 - ♦ 6-ch. = 12-lead UDFN
 - ♦ 8-ch. = 16-lead UDFN
- Tiny UDFN Package Size:
 - ♦ 8-lead: 1.70 mm x 1.35 x 0.50 mm
 - ♦ 12-lead: 2.50 mm x 1.35 x 0.50 mm
 - ♦ 16-lead: 3.30 mm x 1.35 x 0.50 mm
- Increased Robustness against Vertical Impacts During Manufacturing Process
- These Devices are Pb-Free and are RoHS Compliant

Applications

- LCD and Camera Data Lines in Mobile Handsets
- EMI Filtering for Data Ports in Cell Phones, PDAs or Notebook Computers
- LCD and Camera Modules
- I/O Port Protection for Mobile Handsets, Notebook Computers, PDAs, etc.
- Handheld PCs/PDAs
- Wireless Handsets
