

NB3L208KMNGEVB

NB3L208K Evaluation Board User's Manual

ON Semiconductor®

www.onsemi.com

Introduction

The NB3L208K is a differential 1:8 Clock fanout buffer with High-speed Current Steering Logic (HCSL) outputs. Inputs can directly accept differential LVPECL, LVDS and HCSL signals. Single-ended LVPECL, HCSL, LVCMOS, or LVTTL levels are accepted with a proper external V_{TH} reference supply. These signals will be translated to HCSL and eight identical copies of Clock will be distributed, operating up to 350 MHz.

This manual should be used in conjunction with the device datasheet, which contains full technical details on the device specifications and operation.

EVAL BOARD USER'S MANUAL

This evaluation board manual contains:

- Information on the NB3L208K Evaluation Board
- Block Diagram and Board Schematic
- Assembly Instructions
- Test and Measurement Setup Procedures
- Bill of Materials

QUICK START LAB SET-UP USER'S GUIDE

Equipment Required

1. DC Power Supply
2. Oscilloscope
3. Phase Noise Analyzer
4. Connectors for DC Power Supply
5. 50-Ω SMA Connectors for I/Os

Block Diagram

Note: Balun Connected to Outputs Only during Phase Noise Testing.

Figure 2. Time and Frequency Domain Block Diagram

Power Supplies

Each VDD, VDD_0 (VX on board), GND_0 (DUTGND on board) and SMAGND power supply has a separate side-launch banana jack located on bottom side of the test board (as shown in Figure 1).

HCSL Outputs

HCSL outputs are typically loaded and terminated with a series resistor (R_{SERIES}) = 33-Ω and 50-Ω to ground. This can be easily accomplished by connecting the HCSL outputs to the 50-Ω internal impedance in the oscilloscope. There are on-board R_{SERIES} = 33-Ω termination resistors installed for each HCSL output.

NB3L208KMNGEVB

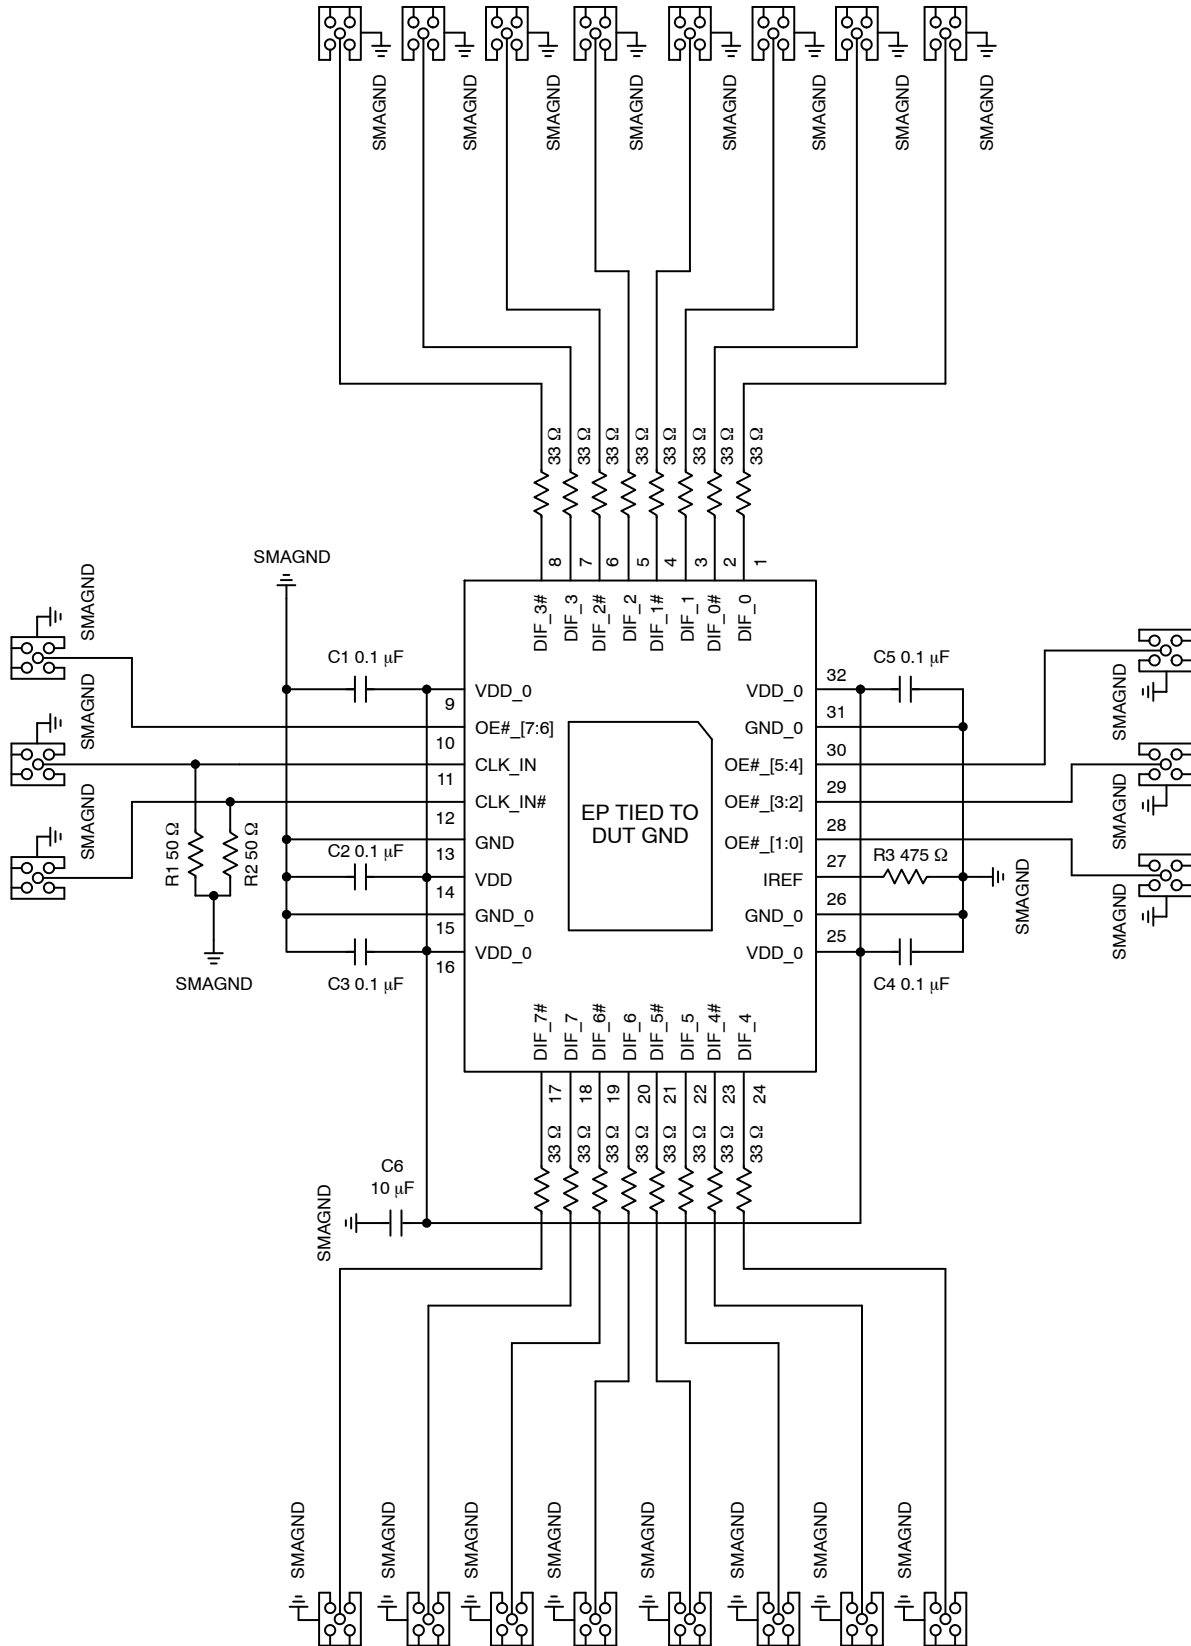

Figure 4. NB3L208KEVB Schematic

Test and Measurement Setup Procedures

1. Connect VDD and VDD_0 (VX on board) of the NB3L208K to DC source with power supply cables (do not turn power on, yet).
2. Connect SMAGND and DUTGND to the appropriate DC source. For differential HCSL inputs, both SMAGND and DUTGND are connected together.
3. Connect the outputs of the generator to the CLK_IN & CLK_IN# inputs with 50- Ω connectors. For phase noise test, low noise generator is required to ensure the best additive RMS Phase jitter of the DUT.
4. Connect the DIF_n/DIF_n# outputs to the appropriate oscilloscope channel. The board does not have 50- Ω output termination, thus use of the probes with 50- Ω termination is required.

Power-Up Sequence

1. Turn on DUT power supply.
2. Setup the generator V_{IH} , V_{IL} levels to set up the inputs to desired inputs levels, i.e differential LVPECL, LVDS, and HCSL signals or Single-ended LVPECL, HCSL, LVCMOS, or LVTTL. For differential HCSL inputs, $V_{IL} = 0$ V and $V_{IH} = 700$ mV.
3. Monitor DIF_n/DIF_n# outputs on oscilloscope.

NOTE: Components are available through most distributors, i.e. www.newark.com, www.Digikey.com.

onsemi, **onsemi**, and other names, marks, and brands are registered and/or common law trademarks of Semiconductor Components Industries, LLC dba "**onsemi**" or its affiliates and/or subsidiaries in the United States and/or other countries. **onsemi** owns the rights to a number of patents, trademarks, copyrights, trade secrets, and other intellectual property. A listing of **onsemi**'s product/patent coverage may be accessed at www.onsemi.com/site/pdf/Patent-Marking.pdf. **onsemi** is an Equal Opportunity/Affirmative Action Employer. This literature is subject to all applicable copyright laws and is not for resale in any manner.

The evaluation board/kit (research and development board/kit) (hereinafter the "board") is not a finished product and is not available for sale to consumers. The board is only intended for research, development, demonstration and evaluation purposes and will only be used in laboratory/development areas by persons with an engineering/technical training and familiar with the risks associated with handling electrical/mechanical components, systems and subsystems. This person assumes full responsibility/liability for proper and safe handling. Any other use, resale or redistribution for any other purpose is strictly prohibited.

THE BOARD IS PROVIDED BY ONSEMI TO YOU "AS IS" AND WITHOUT ANY REPRESENTATIONS OR WARRANTIES WHATSOEVER. WITHOUT LIMITING THE FOREGOING, ONSEMI (AND ITS LICENSORS/SUPPLIERS) HEREBY DISCLAIMS ANY AND ALL REPRESENTATIONS AND WARRANTIES IN RELATION TO THE BOARD, ANY MODIFICATIONS, OR THIS AGREEMENT, WHETHER EXPRESS, IMPLIED, STATUTORY OR OTHERWISE, INCLUDING WITHOUT LIMITATION ANY AND ALL REPRESENTATIONS AND WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, TITLE, NON-INFRINGEMENT, AND THOSE ARISING FROM A COURSE OF DEALING, TRADE USAGE, TRADE CUSTOM OR TRADE PRACTICE.

onsemi reserves the right to make changes without further notice to any board.

You are responsible for determining whether the board will be suitable for your intended use or application or will achieve your intended results. Prior to using or distributing any systems that have been evaluated, designed or tested using the board, you agree to test and validate your design to confirm the functionality for your application. Any technical, applications or design information or advice, quality characterization, reliability data or other services provided by **onsemi** shall not constitute any representation or warranty by **onsemi**, and no additional obligations or liabilities shall arise from **onsemi** having provided such information or services.

onsemi products including the boards are not designed, intended, or authorized for use in life support systems, or any FDA Class 3 medical devices or medical devices with a similar or equivalent classification in a foreign jurisdiction, or any devices intended for implantation in the human body. You agree to indemnify, defend and hold harmless **onsemi**, its directors, officers, employees, representatives, agents, subsidiaries, affiliates, distributors, and assigns, against any and all liabilities, losses, costs, damages, judgments, and expenses, arising out of any claim, demand, investigation, lawsuit, regulatory action or cause of action arising out of or associated with any unauthorized use, even if such claim alleges that **onsemi** was negligent regarding the design or manufacture of any products and/or the board.

This evaluation board/kit does not fall within the scope of the European Union directives regarding electromagnetic compatibility, restricted substances (RoHS), recycling (WEEE), FCC, CE or UL, and may not meet the technical requirements of these or other related directives.

FCC WARNING – This evaluation board/kit is intended for use for engineering development, demonstration, or evaluation purposes only and is not considered by **onsemi** to be a finished end product fit for general consumer use. It may generate, use, or radiate radio frequency energy and has not been tested for compliance with the limits of computing devices pursuant to part 15 of FCC rules, which are designed to provide reasonable protection against radio frequency interference. Operation of this equipment may cause interference with radio communications, in which case the user shall be responsible, at its expense, to take whatever measures may be required to correct this interference.

onsemi does not convey any license under its patent rights nor the rights of others.

LIMITATIONS OF LIABILITY: **onsemi** shall not be liable for any special, consequential, incidental, indirect or punitive damages, including, but not limited to the costs of requalification, delay, loss of profits or goodwill, arising out of or in connection with the board, even if **onsemi** is advised of the possibility of such damages. In no event shall **onsemi**'s aggregate liability from any obligation arising out of or in connection with the board, under any theory of liability, exceed the purchase price paid for the board, if any.

The board is provided to you subject to the license and other terms per **onsemi**'s standard terms and conditions of sale. For more information and documentation, please visit www.onsemi.com.
