ON Semiconductor will consider this change approved unless specific conditions of acceptance are provided in writing within 30 days of receipt of this notice. To do so, contact <quality@onsemi.com>.

DESCRIPTION AND PURPOSE:

This is a notification of the discontinuance of the temporary Halide Free orderable part numbers in the AC/DC product portfolio that were dedicated to Apple and their suppliers. These devices have a suffix of "H". They are replaced by the non "H" orderable part number that has the same form, fit and function and are built with the same Halide Free bill of materials. This is part of our normal product portfolio maintenance. This has been previously agreed upon by Apple and their suppliers once ON Semiconductor had converted all lines to Halide Free.

Added NCP1605DR2GH as it was inadvertently missed.
