

Product Overview

MMBT6517L: High Voltage NPN Bipolar Transistor

For complete documentation, see the data sheet.

This High Voltage NPN Bipolar Transistor is designed for general purpose amplifier applications. This device is housed in the SOT-23 package, which is designed for low power surface mount applications.

Features

- Low $r_{DS(on)}$ Provides Higher Efficiency and Extends Battery Life
- Miniature SOT-23 Surface Mount Package Saves Board Space
- Pb-Free Packages are Available
