

## Product Overview

### FJY3004R: NPN Epitaxial Silicon Transistor with Bias Resistor

For complete documentation, see the data sheet.

Transistors with built-in resistors can be excellent space- and cost-saving solutions by reducing component count and simplifying circuit design.

#### Features

- 100 mA Output Current Capability
- Built-in Bias Resistor ( $R1=47K\Omega$  ,  $R2=47K\Omega$  )

#### Applications

- This product is general usage and suitable for many different applications.
