

Product Overview

DAP222: 80 V Dual Common Anode Switching Diode

For complete documentation, see the data sheet.

This Common Cathode Switching Diode is designed for use in ultra high speed switching applications. This device is housed in the SOT-416/SC-75 package, which is designed for low power surface mount applications, where board space is at a premium.

Features

- Fast trr
- Low CD
- Available in 8 mm Tape and Reel
- Pb-Free Packages are Available
