

## Product Overview

### NGTB40N120IHR: IGBT, 1200V 40A FS2-RC Induction Heating

For complete documentation, see the data sheet.

This Insulated Gate Bipolar Transistor (IGBT) features a robust and cost effective Field Stop (FS) Trench construction, and provides superior performance in demanding switching applications, offering both low on-state voltage and minimal switching loss. The IGBT is well suited for resonant or soft switching applications.

#### Features

- Optimized for Low Case Temperature in IH Cooker Applications
- Extremely Efficient Trench with Fieldstop Technology
- Reliable and Cost Effective Single Die Solution
- Consumer Appliances
- Soft Switching

#### Benefits

- Low Switching Loss Reduces System Power Dissipation

#### Applications

- Inductive Heating

#### Part Electrical Specifications
