

Product Overview

MT9M024: CMOS Image Sensor, 1.2 MP, 1/3"

For complete documentation, see the data sheet.

ON Semiconductor's focus on excellent pixel performance provides the foundation for this sensor's exceptional image quality with superior color accuracy, low light sensitivity and low noise level. This cost-effective imaging solution enables high speed image capture capabilities and includes variable functions, including gain, frame rate, and exposure while maintaining low power consumption.

Applications

- Security
