# Autonomous USB Type-C Passive Cable Marker

### Description

The FUSB380C provides a small footprint solution for passive cable applications. 28 V Tolerant VCONN and CC provides VBUS shorting protection. One FUSB380C can be used in a VCONN through Type-C cable application or two FUSB380Cs can be used in each plug avoiding the high cost of routing VCONN through the Type-C cable. The FUSB380C offers industry leading VCONN operating range down to 2.4 V.

### Features

- Integrated USB-PD 3.0 Protocol Layer and Device Policy Engines
- 5x Programmable for Different Cable Configurations
- USB PD 2.0 and 3.0 Certified
- Robust Design Features:
  - ◆ 28 V Tolerant CC and VCONN
  - ◆ Integrated Isolation Between VCONN1 and VCONN2
  - ◆ 2.4 V – 5.5 V VCONN Operation
- Field Programmable for Different Cable Configurations
- SOP' Signaling Support
- Automatic Ra Weakening to Reduce Power Consumption
- 12 Pin WLCSP (1.21 mm x 1.67 mm)
- These Devices are Pb-Free, Halogen Free/BFR Free and are RoHS Compliant

### Applications

- Passive Cables

## Functional Behaviour

### VCONN Terminations

The FUSB380C device presents a  $R_A$  termination whenever the VCONNx pins are unpowered. Only the VCONNx pin that has a voltage in the valid range for  $t_{VCONNStable}$  will be weakened to  $R_{A\_WEAK}$ .

The function of  $R_{A\_WEAK}$  is to discharge the voltage on VCONN to  $V_{VCONNDischarge}$  within a maximum time of  $t_{VCONNDischarge}$  and a maximum load of 10  $\mu$ F. The  $R_{A\_WEAK}$  termination will be applied until VCONN voltage drops below the  $V_{RARereconnect}$  threshold. Once this threshold is crossed  $R_A$  is reapplied.

### Field Programmable Function

The FUSB380C can be programmed by the customer via Vendor Defined Messages. The user can re-program the device a maximum of 5 times.

The device's Discover Identity response can be fully customized for Passive cables, with or without Modal support.

The FUSB380C also offers the ability to program a Serial Number that can be read via a VDM Specific command.
