onsemi and **onsemi** and other names, marks, and brands are registered and/or common law trademarks of Semiconductor Components Industries, LLC dba "**onsemi**" or its affiliates and/or subsidiaries in the United States and/or other countries. **onsemi** owns the rights to a number of patents, trademarks, copyrights, trade secrets, and other intellectual property. A listing of **onsemi** product/patent coverage may be accessed at www.onsemi.com/site/pdf/Patent-Marking.pdf. **onsemi** reserves the right to make changes at any time to any products or information herein, without notice. The information herein is provided "as-is" and **onsemi** makes no warranty, representation or guarantee regarding the accuracy of the information, product features, availability, functionality, or suitability of its products for any particular purpose, nor does **onsemi** assume any liability arising out of the application or use of any product or circuit, and specifically disclaims any and all liability, including without limitation special, consequential or incidental damages. Buyer is responsible for its products and applications using **onsemi** products, including compliance with all laws, regulations and safety requirements or standards, regardless of any support or applications information provided by **onsemi**. "Typical" parameters which may be provided in **onsemi** data sheets and/or specifications can and do vary in different applications and actual performance may vary over time. All operating parameters, including "Typicals" must be validated for each customer application by customer's technical experts. **onsemi** does not convey any license under any of its intellectual property rights nor the rights of others. **onsemi** products are not designed, intended, or authorized for use as a critical component in life support systems or any FDA Class 3 medical devices or medical devices with a same or similar classification in a foreign jurisdiction or any devices intended for implantation in the human body. Should Buyer purchase or use **onsemi** products for any such unintended or unauthorized application, Buyer shall indemnify and hold **onsemi** and its officers, employees, subsidiaries, affiliates, and distributors harmless against all claims, costs, damages, and expenses, and reasonable attorney fees arising out of, directly or indirectly, any claim of personal injury or death associated with such unintended or unauthorized use, even if such claim alleges that **onsemi** was negligent regarding the design or manufacture of the part. **onsemi** is an Equal Opportunity/Affirmative Action Employer. This literature is subject to all applicable copyright laws and is not for resale in any manner. Other names and brands may be claimed as the property of others.

Release Note for MicroRB-10010-MLP-TR(1) Lot No. DZH490423A

ON Semiconductor®

www.onsemi.com

Parts Tested

- MicroRB-10010-MLP-TR
- MicroRB-10010-MLP-TR1

Lot no:

- DZH490423A

Test Summary

The following parameters are specific to the above-mentioned lots. All other performance parameters for this lot can be found in the product datasheet.

APPLICATION NOTE

Table 1. LOT SPECIFIC PARAMETERS

Parameter	Symbol	Condition	Min	Typ	Max	Unit
Breakdown Voltage (Note 1)	Vbr2	21°C	24.4	25.1	25.8	V

1. Vbr2 is defined as the value of the 0 intercept of a straight line fit to a plot of \sqrt{I} vs V, where I is measured dark current and V is applied reverse bias voltage and the part is in Geiger mode.

Temperature Dependence of Breakdown Voltage

Figure 1. Temperature Dependence of Vbr2

The value of Vbr2 as a function of temperature is plotted in Figure 1 and can be approximated by the equation:

$$V_{br2} = a \cdot T^2 + b \cdot T + c \quad (\text{eq. 1})$$

where T = temperature in °C and fit parameters are given in Table 2.

Table 2. FIT PARAMETERS FOR Vbr2 (T)

a	7.75E-04
b	1.17E-01
c	22.60

AND9931/D

Datasheet

The datasheet for this device is available at: <https://www.onsemi.com/pub/Collateral/MICRORB-SERIES-D.PDF>
