EVAL BOARD USER'S MANUAL

Circuit Description

This design note describes a 48 W, wide range DC input, constant voltage power supply, NCP1568DC48WGEVB, intended for Server AUX power supply and others DC input applications requiring fixed voltage output, low profile, high efficiency and high power density.

The NCP1568DC48WGEVB uses an Active Clamp Flyback (ACF) topology utilizing ON Semiconductor NCP1568 ACF controller, NCP51530A half-bridge driver, NCP4306 synchronous rectified controller and secondary NTMFS6B03 synchronous MOSFET. This Design Note provides the complete circuit schematic details, PCB and BOM for the NCP1568 48 W DC input Power adapter solution that supports fixed 12 V output voltage and 4 A current.

This design uses an ACF topology to implement a Zero Voltage Switching (ZVS) operation with high switching frequency and secondary CLC circuitry to implement secondary Zero Current Switching (ZCS). In order to keep cost low, (2) SJ MOSFETs are used on the primary side for power switching.

Key Features

- DC Input from 120 V to 400 V
- ACF Topology with ZVS Operation
- High Voltage Startup Current eliminates Startup Resistor
- High Frequency Operation to allow Low Profile Transformer: RM7 Transformer
- ACF Operation Frequency Range from 110 kHz to 400 kHz
- Quite Skip and Flyback DCM Operation with Frequency Foldback at No Load and Light Load
- Rated Output Power: 12 V, 4 A
- Ripple and Noise <80 mV
- Efficiency: >94% at 156 Vdc and 320 Vdc @ Full Load
- Output OVP
- Output OCP, SCP
- Open Loop Protection
- Board Size: 40 mm x 24 mm x 17 mm
- Power Density: 48 W/inch³

	Output Specification
Output Voltage	12 V
Nominal Current	4 A
Max Current	4 A
Min Current	Zero
Avg. Efficiency	>94% @ 12 V / 4 A at board end, 160 & 320 Vdc
Ripple	<80 mV
Standby Power	<150 mW
Power Density	48 W/in ³
Protection	Adaptive UVP, OVP, OVP, SCP, OTP
Size	40 mm x 24 mm x 17 mm

Device	Application	Input Voltage	Output Power	Topology	I/O Isolation
NCP1568S02DBR2G NCP51530AMNTWG NCP4306AADZZZAMNTWG NTMFS6B03NT1G	Server AUX power supply and other DC input applications	120 Vdc to 400 Vdc	48 W	Flyback	Isolated (3 kV)

ON Semiconductor Design Notes DN05043

onsemi, **onsemi**, and other names, marks, and brands are registered and/or common law trademarks of Semiconductor Components Industries, LLC dba "**onsemi**" or its affiliates and/or subsidiaries in the United States and/or other countries. **onsemi** owns the rights to a number of patents, trademarks, copyrights, trade secrets, and other intellectual property. A listing of **onsemi**'s product/patent coverage may be accessed at www.onsemi.com/site/pdf/Patent-Marking.pdf. **onsemi** is an Equal Opportunity/Affirmative Action Employer. This literature is subject to all applicable copyright laws and is not for resale in any manner.

The evaluation board/kit (research and development board/kit) (hereinafter the "board") is not a finished product and is not available for sale to consumers. The board is only intended for research, development, demonstration and evaluation purposes and will only be used in laboratory/development areas by persons with an engineering/technical training and familiar with the risks associated with handling electrical/mechanical components, systems and subsystems. This person assumes full responsibility/liability for proper and safe handling. Any other use, resale or redistribution for any other purpose is strictly prohibited.

THE BOARD IS PROVIDED BY ONSEMI TO YOU "AS IS" AND WITHOUT ANY REPRESENTATIONS OR WARRANTIES WHATSOEVER. WITHOUT LIMITING THE FOREGOING, ONSEMI (AND ITS LICENSORS/SUPPLIERS) HEREBY DISCLAIMS ANY AND ALL REPRESENTATIONS AND WARRANTIES IN RELATION TO THE BOARD, ANY MODIFICATIONS, OR THIS AGREEMENT, WHETHER EXPRESS, IMPLIED, STATUTORY OR OTHERWISE, INCLUDING WITHOUT LIMITATION ANY AND ALL REPRESENTATIONS AND WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, TITLE, NON-INFRINGEMENT, AND THOSE ARISING FROM A COURSE OF DEALING, TRADE USAGE, TRADE CUSTOM OR TRADE PRACTICE.

onsemi reserves the right to make changes without further notice to any board.

You are responsible for determining whether the board will be suitable for your intended use or application or will achieve your intended results. Prior to using or distributing any systems that have been evaluated, designed or tested using the board, you agree to test and validate your design to confirm the functionality for your application. Any technical, applications or design information or advice, quality characterization, reliability data or other services provided by **onsemi** shall not constitute any representation or warranty by **onsemi**, and no additional obligations or liabilities shall arise from **onsemi** having provided such information or services.

onsemi products including the boards are not designed, intended, or authorized for use in life support systems, or any FDA Class 3 medical devices or medical devices with a similar or equivalent classification in a foreign jurisdiction, or any devices intended for implantation in the human body. You agree to indemnify, defend and hold harmless **onsemi**, its directors, officers, employees, representatives, agents, subsidiaries, affiliates, distributors, and assigns, against any and all liabilities, losses, costs, damages, judgments, and expenses, arising out of any claim, demand, investigation, lawsuit, regulatory action or cause of action arising out of or associated with any unauthorized use, even if such claim alleges that **onsemi** was negligent regarding the design or manufacture of any products and/or the board.

This evaluation board/kit does not fall within the scope of the European Union directives regarding electromagnetic compatibility, restricted substances (RoHS), recycling (WEEE), FCC, CE or UL, and may not meet the technical requirements of these or other related directives.

FCC WARNING – This evaluation board/kit is intended for use for engineering development, demonstration, or evaluation purposes only and is not considered by **onsemi** to be a finished end product fit for general consumer use. It may generate, use, or radiate radio frequency energy and has not been tested for compliance with the limits of computing devices pursuant to part 15 of FCC rules, which are designed to provide reasonable protection against radio frequency interference. Operation of this equipment may cause interference with radio communications, in which case the user shall be responsible, at its expense, to take whatever measures may be required to correct this interference.

onsemi does not convey any license under its patent rights nor the rights of others.

LIMITATIONS OF LIABILITY: **onsemi** shall not be liable for any special, consequential, incidental, indirect or punitive damages, including, but not limited to the costs of requalification, delay, loss of profits or goodwill, arising out of or in connection with the board, even if **onsemi** is advised of the possibility of such damages. In no event shall **onsemi**'s aggregate liability from any obligation arising out of or in connection with the board, under any theory of liability, exceed the purchase price paid for the board, if any.

The board is provided to you subject to the license and other terms per **onsemi**'s standard terms and conditions of sale. For more information and documentation, please visit www.onsemi.com.
