09-MAY-2005

SUBJECT: ON Semiconductor General Announcement #14078

TITLE: ASE CHUNG LI FIRE UPDATE

EFFECTIVE DATE: 09-MAY-2005

AFFECTED PRODUCT DIVISION: ON Semiconductor

FOR ANY QUESTIONS CONCERNING THIS NOTIFICATION:

Contact Your Local ON Semiconductor Sales Representative or
Mark Wasilewski , RYGF20@onsemi.com>

DESCRIPTION AND PURPOSE:

Advanced Semiconductor Engineering Inc. (ASE) reported a fire at its semiconductor packaging and testing facilities in Chungli, Taiwan on May 1, 2005. The fire broke out at one of ASE's production buildings in what the Company suspects was an explosion of a boiler on the ground floor and was contained by firefighters within two hours.

ON Semiconductor has assembly of some of their BGA product housed at ASE's Chungli facility. After careful assessment, it has been determined that the impact of the ASE fire to our supply chain is minimal. This is due to a low run rate and our sufficient inventory to meet current customer demands.
