****************************
Introduction

The business of onsemi is the design and manufacture of semiconductor components primarily used in the automotive and industrial end-markets, such as vehicle electrification and safety, sustainable energy grids, industrial automation, and 5G and Cloud infrastructure. Headquartered in Scottsdale, Arizona, USA, we maintain a total worldwide workforce of approximately 32,000 employees. In Canada, our workforce is approximately 165 employees whose primarily roles support design, solution engineering, manufacturing, sales and customer and technical support. A full list of onsemi locations can be viewed on our website.

Under the guidance and oversight of the company’s Board of Directors, all business is conducted by employees, managers and officers of onsemi at the direction of the chief executive officer (CEO) and/or executive management. The Board of Directors and its standing committees meet with executive management at least four (4) times per year to review and discuss various aspects of the company including, but not limited to, the performance of the company as well as its efforts relating to human rights, prevention of forced labor and child labor, prevention of human trafficking and ESG initiatives.

Our supply chain has a multi-faceted structure that consists of direct material suppliers, foundry and subcontractor providers, indirect material suppliers, and professional service providers deployed across a global procurement and sourcing organization.

At onsemi, we are unwavering in our commitment to the mission and principles of the Responsible Business Alliance (RBA). As a responsible corporate citizen, we adhere to the RBA Code of Conduct and comply with all relevant laws and regulations in the countries where we operate. Our dedication extends beyond legal compliance; we actively champion the fundamental rights of all individuals.

onsemi RBA Commitment

onsemi, a member of the Responsible Business Alliance (RBA) since 2009, solidified its full membership in 2010. The RBA, recognized as the world’s largest electronics industry coalition, is dedicated to promoting corporate social responsibility and compliance within global supply chains.

Our Guiding Principles

1. **RBA Code of Conduct**: We uphold the RBA Code of Conduct, which sets forth ethical standards for labor, human rights, environmental sustainability, and business integrity.
2. **Universal Declaration of Human Rights (UDHR):** We align our practices with the principles outlined in the UDHR, recognizing the inherent dignity and equal rights of every person.

3. **UN Guiding Principles on Business and Human Rights:** We integrate the UN Guiding Principles into our operations, emphasizing due diligence, transparency, and accountability.

4. **UN Global Compact:** As signatories to the UN Global Compact, we commit to its ten principles related to human rights, labor, environment, and anti-corruption.

5. **Company Policies and Statements**
   - onsemi Human Rights Policy
   - Prevention of Slavery and Human Trafficking
   - Code of Business Conduct
   - Social Compliance Commitment
   - Social Compliance Commitment Guide

**Our Collaborative Approach**

We collaborate with our customers, peers, partners, and suppliers to promote responsible practices across our supply chain. Our focus areas include:

1. **Human Rights:** Our formalized Human Rights Policy reflects our commitment to international standards. We respect the rights of workers, communities, and stakeholders.

2. **Labor Practices:** We ensure that all work within our company is voluntary. Workers have the legal right to leave without penalty.

3. **Environment:** We strive for environmental stewardship, minimizing our ecological footprint and promoting sustainable practices.

4. **Health and Safety:** Our management systems prioritize the well-being of our employees and contractors.

5. **Anti-Corruption:** We maintain a zero-tolerance stance toward corruption and unethical behavior.

6. **Ethics:** Our Code of Business Conduct reinforces our ethical values and our commitment to integrity and compliance.

**Preventing Slavery and Human Trafficking**

Our Slavery and Human Trafficking Policy Statement underscores our commitment to eradicating these horrific practices. Key measures include:

- **Awareness:** We educate our workforce about the signs of slavery and human trafficking.
- **Zero Tolerance:** We have zero tolerance for any form of exploitation. Violations are met with swift action.
• **Voluntary Work**: We ensure that all work at onsemi is voluntary, and workers are free to leave without penalty or repercussions.

• **Document Verification**: We ensure that workers’ government-issued identification, original work permits, and personal documentation are not retained.

### Forced Labor and Child Labor Due Diligence

The Responsible Business Alliance program (RBA) of the company encompasses the force labor due diligence flow stemming from the recognition that the rights of workers, especially those vulnerable to forced labor in the supply chain, are respected. The collective action of internal and external shareholders ensures the reduction of forced labor risks. Based on the OECD Due Diligence Guidance for Responsible Business Conduct linked [here](#), our policies and practices are assessed and mitigated at all stages of recruitment and employment and remediations are defined for incidents.

**OECD Due Diligence Guidance for Responsible Business Conduct* and mapping to the onsemi RBA Program and Due Diligence Process**

We conduct ongoing due diligence to identify and address any risks related to forced labor.

Our commitment includes:

• **Supply Chain Assessment:**
  - *Internal Assessment* - **onsemi** conducts internal assessments at all its manufacturing sites to identify risks related to forced labor and child labor. A two-year cycle of internal audits of the RBA Code of Conduct and internal policies as criteria is in place.
Third-party Assessment - Among the pivotal activities undertaken by onsemi as an RBA member is the active participation in the RBA Validated Assessment Program (VAP) which stands as a leading compliance assessment, verification, and effectiveness monitoring initiative. onsemi ensures alignment with industry standards and best practices through regular third-party audits under the RBA VAP as well as participation in industry-wide dialogues and working groups.

- **Worker Recruitment Practices:** Recruitment checks are in place to ensure:
  - Zero recruitment fees.
  - Voluntary recruitment through offer letters/employment contracts that are provided and signed prior start of employment in a language the ‘applicants’ understand.
  - All workers are required to be at least 18 years of age through cross-referencing government-issued documents such as birth certificates, national identification, passport, etc.

- **Risk Mitigation:** An annual review of potential risks is performed, and mitigating actions are identified for high risks.

- **Supplier Monitoring and Engagement:**
  - onsemi Code of Business Conduct Acknowledgment
  - All suppliers acknowledge the RBA Code of Conduct before establishing a business relationship.
  - Self-Assessment Questionnaires (“SAQs”) via RBA Portal - Major suppliers are obligated to submit their self-assessments through the RBA Online Portal (or another acceptable alternative/platform). The SAQs serve as the foundation for potential inclusion in the (shared) RBA audit cooperation program, or other independent audit programs.

- **Remediation:** The due diligence program is first and foremost a mitigation process to prevent an occurrence. In case of an occurrence, however, an ad hoc committee will be created to review and decide on the matter. The committee will be chaired by the Head of Ethics and Social Compliance group as well as the Social Compliance team members. As maybe required from time to time, representatives from regional legal counsel, VP or regional/site human resources, VP of manufacturing or site general manager and VP/Regional Procurement maybe asked or requested to join the committee to support and/or provide additional information and guidance.

  Cooperation with affected parties to rectify instances of forced labor or child labor is a required and expected practice.

- **Grievance and Reporting Mechanisms:** onsemi has implemented multiple ways to report concerns and grievances such as a 24/7 helpline accessible by all those in manufacturing sites, or by direct email to the Chief Compliance Office, to the Ethics and Compliance Program Management and/or to the Legal Compliance Program. Moreover, the 24/7 helpline accessible online or by telephone, is
managed by a third-party provider and open to all entities including suppliers and business relationships. Refer [here](#) for the details on how to report an incident or concern.

- **Training and Awareness:** Equally important is the task of educating our workforce and suppliers on recognizing and preventing forced labor. All employees and the onsemi board of directors are required to complete training on and reaffirm their commitment to each of the human rights listed above through our annual Code of Business Conduct which further includes training on non-retaliation and social compliance. Global onsemi security personnel and select contractors are also trained on relevant human rights standards through our Code of Business Conduct, the RBA Code of Conduct, and any relevant other training to ensure the human rights of the individual are maintained.

- **Assessing Effectiveness:** At onsemi we stand firm in our commitment to responsible business practice in ensuring that forced labor and child labor are not used in our business and supply chains by conducting regular self-assessment and third-party audits.
