

To: Our Valued Customers, Sales Representatives and Distributors  
 Date: August 13, 2021  
 Subject: onsemi Business Update Related to COVID-19 Pandemic

Dear valued customer:

Due to a surge in COVID-19 cases across the Asia-Pacific region, governments and their agencies have increased restrictive measures for the public and businesses in order to slow the spread of the virus within communities. Our company prioritizes the safety of our employees under all circumstances and is doing everything in its power to mitigate the impact of the limitations for our customers, working to ensure the on-time delivery of products.

The below chart depicts a snapshot of the impact to our global operations due to these restrictions. If the country/site combination of one of our locations is not listed, it currently has no restrictions on utilizations. Site calendars are updated as details are made available and scheduled ship dates are typically reflected in the subsequent run each week. Customers should focus on their weekly refreshed commitment dates and work with local customer service representatives to assess the impact and register/manage escalations per the onsemi process.

**Force Majeure Event:**  
 Caused by COVID Government response.
