SDT Customer Outbound Flows

FCA Burlington, Ontario

- To minimize customer impact, we will use FCA Incoterm per Incoterms 2010 for all customers in Asia and Europe. Customers under this term will take ownership at the time that their appointed carrier picks up the product from the Burlington facility.
- Customer is responsible for all transportation expense and any product loss or damage from the time their appointed carrier collects the goods in Burlington.
- At the time of pick up, carriers will receive the following documentation: 1) Packing List, 2) Commercial invoice

FCA LAX

- Customers located in the US, Brazil and Mexico will be served via LAX with an Incoterm of FCA LAX per Incoterms 2010. Customers under this term will take ownership at the time that their appointed carrier picks up the product from the Los Angeles facility.
- Customer is responsible for all transportation expense and any product loss or damage from the time their appointed carrier collects the goods in Los Angeles.
- At the time of pick up, carriers will receive the following documentation: 1) Packing List and 2) Commercial Invoice (if customer is located outside the US).

EXW Burlington, Ontario

- Customers located in Canada will use EXW Incoterm per Incoterms 2010. Customers under this term will take ownership at the time that their appointed carrier picks up the product from the Burlington facility.
- Customer is responsible for all transportation expense and any product loss or damage from the time their appointed carrier collects the goods in Burlington.
- Carriers will receive a Packing List at the time of pick up.
