## ON Semiconductor's Corporate Social Responsibility Statement of Commitment

At ON Semiconductor, we are committed to the mission and principals of the Responsible Business Alliance (RBA), upholding the RBA Code of Conduct and following all applicable laws and regulations of those countries where we do business. We work together with our customers, peers, partners and suppliers to promote continual improvement in labor, environment, health and safety, ethics and management system standards within our operations and our supply chain. This includes proactively verifying compliance to the RBA Code of Conduct including the elimination of forced labor, slavery and human trafficking and conflict minerals as per our involvement with the Responsible Minerals Initiative (RMI).

We are proud of our commitment to the RBA along with the many other organizations and initiatives we support in relation to technological advances in sustainable energy, power conservation and corporate social responsibility. This commitment is deeply ingrained in our Core Values, policies, Code of Business Conduct and daily operations and allows us to be transparent and socially responsible toward our employees, suppliers, customers, and communities where we do business worldwide.

A handwritten signature in blue ink, appearing to read "K. Jackson", written over a horizontal line.
